Instructions for Use

Eye protection is only effective if correctly selected, fitted and worn for the complete period of exposure to hazards - Read ALL instructions and warnings carefully before use.

1. Inspect the glasses carefully before use and discard if damaged in any way.
2. Inspect the glasses at regular intervals. If the frame or lenses are damaged in any way leave the area of hazard and replace the glasses. There are no user replaceable parts available for this model.

Warnings

- This eyewear offers no protection against IR radiation and thus should not be used as primary protection in environments where dangerous levels of IR radiation are present, for example where welding operations are carried out or the casting of molten metal.
- This eyewear offers adequate protection against UV sun radiation but **MUST NOT** be used in areas where there are hazardous levels of UV radiation such as UV curing operations.
- This eyewear offers no protection against sun glare unless fitted with smoke lenses (see Additional Standards above)
- This product is for eye protection against low energy impact hazards but is **NOT** unbreakable.
- **DO NOT** modify or alter the eye protector.
- Pitted or scratched lenses reduce visual accuity and seriously reduce protection levels. Discard eyewear if damaged,
- On rare occasions materials used in manufacture may cause an allergic reaction in susceptible individuals. Discontinue use if affected and seek medical advice.
- Always check with suitable qualified supervisory staff that you have been given the correct protection relative to working conditions.
