Winterbourne Entrance Shelter

Maximise your school entrances whilst providing light and airy protection from the elements

- Protects your entrances from the weather and reduces the amount of water and debris entering your premises
- Allows entrance doors to be left open more frequently to provide more ventilation for your premises
- Freestanding structure does not need to be attached to building
- Heavy duty steel and polycarbonate structure is long lasting and hard wearing

Specifications:

Frame:

- Mild steel, hot dip galvanised to ISO 1461 2009 polyester epoxy powder coated
- 75mm uprights and 40mm or 50mm steel tubes for frame
- Square hollow tubes
- Maintenance free for 15 years and life maintained for 25 years
- Available in 8 standard colours (see below). All other RAL colours available on special order

Glazing:

- 16mm triple wall polycarbonate roofing

Configurations and Assembly:

- Available in many sizes and any configuration
- Surface (bolted) or subsurface mounted depending on size and configuration
- All fixings zinc coated
- Supplied with full assembly instructions

Free Site Surveys

We offer FREE surveys to all UK Mainland Schools and Educational establishments. Whether you are looking for advice to a full site survey including measurements of your area, we are happy to either discuss your options over the telephone or send one of our surveyors out to visit you.

Installation Service

Our in-house installation team have over 15 years experience and are all members of the Construction Skills Certification Scheme (CSCS). From ground works to full installation, our installers are reliable, responsible and will ensure your area is left clean and tidy once the installation is complete ensuring that minimal disruption is caused to your day.

Winterbourne Wall Attached / Free Standing Waiting / Entrance Shelter

Perfect for use as a walkway between classrooms

- Accentuate any doorway or main entrance with this stylish and modern shelter
- Protect your entrances from wet weather, dust and debris
- Can be modified to include integral guttering and drainage systems
- Ideal for use outside a main or side entrance of a building to create an outside eating or play area
- Clear roof and open sides gives shelter a light and airy feel
- Steel construction is long lasting and hard wearing

Specifications:

Frame:

- Mild steel, hot dip galvanised to ISO 1461 2009 and polyester epoxy powder coated
- 75mm uprights and 40mm or 50mm steel tubes for frame
- Maintenance free for 15 years and life maintained for 25 years
- Available in 8 standard colours (see below). All RAL colours available on special order

Roof Glazing:

- 16mm triple wall polycarbonate roof

Configurations and Assembly:

- Surface (bolted) or subsurface mounted depending on size and configuration
- Preparation Required (if sub surface fixing base needed):
0.5m deep hole per leg to be filled with concrete
(Allow one week for concrete to cure before assembly).
Hole diameter will differ depending on shelter configuration
- All fixings zinc plated
- Supplied with full assembly instructions
- Can be made to any size and configuration
- Can be installed by our installation team. Call us on **0800 1777 052** for a quotation

Winterbourne Back to Wall Walkway

Stylish design provides coverage from the elements

- Covered walkway that fastens to the side of the building
- Immediate coverage from above and the side when stepping outside a building
- Protects staff, pupils and parents as well as equipment from the elements when moving from building to building
- Helps to focus the flow of pedestrian traffic such as pupils going to and from a classroom
- Clear roof gives walkway a light and airy feel
- Wall fastening gives more walkway space and will not obstruct openings such as windows or doors
- Steel structure is long lasting and hardwearing

Specifications:

Frame:

- Mild steel construction hot dip galvanised to ISO 1461 2009 and polyester epoxy coated
- 75mm uprights and 40mm or 50mm square hollow tubes for frame
- Square hollow tube
- Maintenance free for 15 years and life maintained for 25 years
- Available in 8 standard colours (see below). All other RAL colours available on special order
- Attaches to a wall to make an enclosed area

Glazing:

- Sides: 4mm polycarbonate face fixed to frame
- Roof: 16mm triple wall polycarbonate

Configurations and Assembly:

- Bolted to the wall and bolted to the ground in most cases
- Supplied with full assembled instructions
- Can be assembled by our installation team. Call **0800 1777 052** for a quotation
